CX280X DOCSIS 3.0 - 3.1

erat

VeSion Advanced CATV Monitoring

The CX280X features all-in-one RF Monitoring with QAM, DOCSIS 3.1, and Fast MPEG monitoring and analysis.

PLATFORM HIGHLIGHTS

- Complete web-based solution compatible with any web browser
- Flexible distributed architecture for easy expansion, increased reliability, and reduced system down time
- Email, SMS, SNMP, Syslog notifications
- Secured IP connection for access from any location with Internet connection via Android and iOS mobile devices, web access

KEY FEATURES

- Space efficient 1U rackmount unit with built-in 16 port matrix switch
- Fast VeCheck downstream performance scan for QAM, DOCSIS, OFDM, and Analog channels
- MPEG-TS ETR 101 290 Priority 1 and 2 monitoring with encryption detection
- Powerful DOCSIS 3.1 OFDM Analyzer
- On Demand Full Band Capture
- Monitors up to 256 nodes with AT1702-3G/AT1602-3G series switches
- Modular architecture enabling feature expansion
